Medina High School

Medina, New York 14103

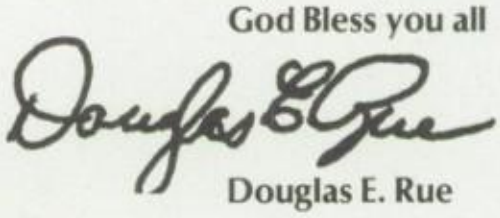
To The Class of '82:

I write this letter as the father of Michael Rue in the hopes that Mike's death can possibly prevent another tragedy in your class.

Having been a New York State Trooper for almost twenty years, I have had the grim responsibility of being at accident scenes where twisted and mangled bodies of young people were found. Each of these times I have prayed that this would not happen to any of my children. It did. I now know the agony and emptiness that all of those other parents must have felt.

I am asking you, Mike's Classmates, to help me make his death meaningful. If just one time during your Senior Year each of you would ask a classmate to slow down his car, not to drive recklessly, not drive after the party where he had too many beers or in some small way, attempt to prevent another reckless accident, maybe then I will be able to go on with life knowing that Mike is still with the Class of '82.

Thank you for your kindness
God Bless you all



Douglas E. Rue

To lose a friend like Mike Rue before our senior year was an experience that was felt by everyone.

We always hear of tragic accidents such as Mike's, but when someone is involved that is close to us, we take the time to stop and really think about it.

We think of the classes we shared with Mike, the memories we made, and the times he made us laugh. Mike could certainly make us laugh. He had the special kind of humor that only a special person like Mike could produce. His humor was always enhanced by his smile.

The Mirror is usually dedicated to a teacher but this year we feel that our book should be dedicated to Michael J. Rue. He is closer to us than a teacher could ever really be. He is our classmate. Most of all, he is our very dear friend.

Girls and Boys Track

As the years go by, Medina track has grown in victories and in closeness. We've learned what it is to go and win and we've learned what it is to lose. We have a special kind of love on the team that can only be understood by someone that has had the chance to experience it. Practices start early and the meets go by quickly, but in that time we pack fun, hard work, sportsmanship, character, many happy memories, a few sad ones, and a lot of love. It has been a great year that will last in our minds forever.

Varsity Softball

The 1981 softball team had a very good season. We practiced every day, and every day we grew better and better. By the time we started league games, we all knew that anyone could have won the league. Fortunately, we were the ones to earn that honor.

Varsity Baseball

The Varsity Baseball team captured the 1981 N-O League Title with a record of 12-2. It was the first championship since 1969. We were expertly coached by second year Varsity skipper Mr. Tierney. In Sectional play, we reached the finals by beating Pioneer and Trott but were upset in the championship game by Southwestern. A strong nucleus of eight returners should assure Medina of successfully defending its title.

This year's team had to follow some really big footsteps after last year's team went on to win sectional honors at Rich Stadium. Our team is really small in size, but so far we're finding out that we're just as tough as everyone else. Before the season started, all I heard was that "Medina isn't anything in football this year," and to be honest, I thought the same thing. This year's team has given all of us a great deal of confidence as athletes and they've also shown what a small group of fellows can do if they just believe in themselves and their abilities. I'm really glad that I'm associated with this great bunch of guys.

Beginning my A.F.S. experience in Medina, I integrated myself into the high school soccer team. I lack the words to express to you all that I gained from the experience. I came to have many friends in a short period of time. In addition, I came to know the warm atmosphere of the games and to see several pretty places.

I remember vividly the day we were practicing and it began to snow. It made such an impression on me because I had never before seen snow falling from the sky. Everyone was filled with happiness and I alone was awed by this phenomenon. What I didn't like was that at times it was so cold. But with time one adjusts to everything and I became accustomed to it.

Never will I forget the times I lived while playing soccer and all the friends I met. I thank all of them for the confidence and friendship they gave me.

Cross Country, like any other sport, gives an athlete the chance to shine as an individual, and a group of athletes the chance to prove themselves as a team. But it's not easy. It takes a lot to make it as a runner; guts — to come out in first place and give it your best shot; determination — to set goals and work hard to meet them; pride — pride in your ability and accomplishments, whether they be great or small; and ambition — a desire to work harder and improve yourself.

Almost everyone on the team had some kind of difficulty this year, either physical or psychological, but whenever one of us was down the others were right there to help him or her get it back together. This not only helped the team's overall performance, but it also brought us closer together and made us better teammates, and better friends.

I'd like to take this opportunity to thank my teammates and coach for such a great experience, because we really have shared some awfully good times, both in cross country and in our social lives. I hope you never forget them or me, because I won't forget you and everything we've shared.

I think I can speak for the whole team and say we were proud to have represented Medina as runners; and proud to have done it in the manner that we did, as undefeated league champions.

This year we set out to reach two goals: to retain both the League Championship and the Sectional VI title. It was a tough battle all the way to the end. We lost twice to Akron and tied once with Royhart, making our record 11-2-1. Losing the league to our rival Akron, inspired us throughout sectional competition which helped us to the finals. We put forth our greatest effort against Akron in the finals but lost 2-1 with the winning goal scored by Akron in the last minute of the game. Although we did not accomplish our goals; their was a strong spirit of loyalty and companionship within our team. Strong friendships were established both on and off the field.

It's been a pretty good season. This is our second consecutive N-0 League championship. Our record has been 26 and 2 in the last two years. You begin to hate the monotony of practice, but now that it's over, you really miss it. All in all it's been a good three years playing Varsity ball for MHS and I wish next year's team the best of luck.

If winning was accomplished just by trying the hardest, the volleyball team would have had a perfect season.

Even though we had polished skills and desire, we had a disappointing season in the win-loss column. Coach Grimm always said, "It's too bad the games aren't over at 13 points." Unfortunately, volleyball is a 15 point game and we fell just short of vicotry on many occasions.

We tried everything from "strollin' bowling" to prayers to find the missing spark we needed to win our games.

Although it was a disappointing season in the record books, it was a winning season for us because of the lasting friendships gained and the enjoyment shared.

To sum up the year — we tried as earnestly as we could. Although we did not win any meets, the Medina Seahorses did come closer to winning than we ever have for the past six years. We must commend the entire swim team for their devotion and tenacity. We had a good year, and hope that the Medina Seahorses will carry on the tradition of Medina sportsmanship. This year's wrestling season was a disappointing one as we let go of the Niag Orleans League mat title. Under new Varsity Coach Bill Ames, the team wor hard. We grew used to new coaching rules and kept learning. As mentioned bef we didn't win the league title, but we were well represented by four League Ch pions and two runners up. In the state qualifier, we proved that we were toug than any other team in the league as we had the most place finishers. The sea was very enjoyable, even though we lost a few. But isn't losing part of learning?

Music

How sad it is to tell a tale that isn't ever to happen again.

All the music each of us has shared over the years will not be forgotten, for the memories are the magic that will not let us forget our youth. Life has a way of passing by without our realizing how special the great moments really are; and when they are foreseen, a heartthrob of pain and joy are felt simultaneously.

We will not forget the great people who have guided us to the most of our musical perfection. But we can praise them for their special gift.

It is hard to say good-bye to an organization that has given so much appreciation to our hearts.

Fall Band was an exciting experience for me. I enjoyed it very much. The season proved to be a great season. Practice of course was very hard but it proved to be worthwhile. Often we practiced in cold rainy weather, but it was fun. Going to the carrier dome was the most exciting thing for me personally. It was an experience I won't forget. I feel the season was a great success and a lot of fun.

Band Staff is a subject that I approach with mixed emotions. Throughout this past season, I've realized that staff isn't a joyride, but it is special because I've gained some memories that no one can ever take away. If the next staff members can walk away with half as many happy memories and even some of the not so happy memories, they'll be lucky. Now that the time seems to be flying by so fast, all I can do is wish it to stand still. — M. C.

A Tribute to the Medina Mustang Band Boosters

What is a Marching Band without its Boosters? Nothing. We wish to thank each and every Band Booster member for all their hours of help and support. Without their help we realize there would be no new uniforms or new equipment or exciting Spring trip.

As the Alumni look back on their band years I'm sure they will never forget all the Booster fund raisers, including pizza sales, bike-athons, and membership drives; because they were fun as well as worthwhile.

In closing we deeply appreciate all their dedicated efforts and time spent on helping us become the Band we are today.

— Hi People —

I want to take this opportunity to thank all those people who offered me such wonderful support and cooperation during the course of the 1981-1982 school year.

Through my A.F.S. experience here in Medina I enjoyed myself, especially since everything was no different from my country, Costa Rica. Although there were difficult times with the language, I feel proud to have learned English, as well as many other things.

What I liked best was the individualism of the girls and their willingness to be themselves and no one else.

What I liked least of all was extreme cold I felt sometimes during the winter (although it's fun to play in the snow).

All that remains for me to say to you is that this experience will remain with me as one of the best memories of my life and I wish the best to all of you in the future.

Carlos Manuele Li Ng

I want to thank everybody who has made this year such a great experience for me. Although the school was a little different than my school in Holland, I liked it and I had a nice time.

The students and teachers were very nice to me, and they helped me a lot.

Thank you school,
Thank you Medina,
Thank you everybody, for making this A.F.S. year an unforgettable year for me.

Inge Versluis

The time I have spent here in Medina was great. I have learned many new things about you and your country, which I will never forget in my life. The time I spent at school was very funny (especially when I think of Mr. Berger and Mr. Weider). It took me a while to get used to your school — like the short break, the lockers, the studyhall, and changing the classes. The first couple days were "terrible" for me because I couldn't find my classes and I didn't understand my teachers. But I met many people, made friends and had fun. The school was not hard and everybody was friendly to me. I am really glad to have found two people to play "Austrian" music with me. The only thing I have really missed here were the mountains of my country — Austria. My A.F.S. experience was very nice and I have gained a lot. At the end I want to thank everybody who helped me to have this great year here in Medina.

Thank you! Herbert

When I came to Medina, I came alone with just a family waiting for me. However, I found a family, and such great people. Most of my activities were in school which the first days found myself lost crowd, but I didn't give up! I started to search for friendships, sharing my best and being myself.

This is a very special year to me and I'll never forget how I felt when I saw snow for the first time and much fun it is. My English class, the lunch, my locker (569) and how difficult it was to open. The soccer taught me a lot — our games — our fun — all those guys. I'll miss very much all of you people who helped me to stand up on my own feet and became my friends!

Now, the whole Medina High School live in my heart, unforgettable and I'd like to say Thank you to you people and all my friends from Medina High School.

Love,
Luiz Heleno Firmino Pereira

Agriculture is a lot more than just plows and cows. We have participated in judging contests, Cornell Days for FFA, Parliamentary procedure contests, FFA week, forum competitions, job interviews, Demonstration, and Speaking contests where we had Sub-State and State Finalists. We also had a sub-district officer and a state officer. Members attended State and National Conventions, Governmental Seminar in Albany, and applied for and received many awards for their excellence. The FFA has been a very important part of our high school years. It's given us the opportunity to travel all over, meet many people, and to develop our leadership skills to their fullest.

The main function of the Athletic Council is to raise money for the Block M Banquet. This money comes from the sale of concessions at the home football games, and from the sale of candy and drinks at all of the home wrestling matches and the boys and girls varsity basketball games. The experience of belonging to a club, and getting to meet new people, coupled with many pleasurable moments, made it a great year.

1982 Yearbook Staff

The work involved in putting a yearbook together is uncomprehendible to most people. You see the finished product. You don't see the layout sheets, technicroppers, grease pencils, quad-packs, and deadline dates. There is a lot of hard work and a lot more dedication involved. Yearbook takes top priority. The work must be done at a certain time — no exceptions. It's tough work, but I feel this book is a fine example of our hard work and dedication.

I have been both proud and honored to serve Medina High School in representing this year through the 1982 Mirror.

NATURE APPRECIATION

To appreciate something is to be aware of it and understand its meaning and worth. The nature appreciation club offers the chance, to anyone who's interested, to learn about nature and the many things that exist in it. That includes the various forms of plant and animal life, the weather, the environment, and others. The club also offers activities that allow you to enjoy nature, such as canoeing, cross country skiing, and camping.

I, personally, found the club enjoyable, interesting, informative, and very worthwhile; it is better than sitting in a study hall during activity period.

Nutrition Club:

The Nutrition club is designed to show and to help students understand more about the foods they eat. The club may not be as popular as the others, but I feel that it is as important to the students as some of the other clubs. I also feel that it will begin to grow in the years to come as more students become aware of it.

Photography Club:

Photography club has got to be the most important club of the bunch because it is offered for both 1st and 3rd weeks. And then there is the teacher — Mr. Cameron, the originator of the famed "Cameron Factor." We get together, share pictures and experiences, tell sick camera jokes and learn all about shutter speeds. Then there is the Photographers Golden Rule . . . the most important of all . . . the one that is punishable by death . . . Don't forget to take the lens cap off!!!

Library Club:

Working in the library this year has been a great experience. Putting away books and filing magazines is not one of my favorite jobs but it has taught me the importance of organization. I have gotten to know a few of my classmates and friends better by working in the library and I hope that I can continue to be hopeful to anyone using the library.

Special Education tutoring can be a very worthwhile activity. It gives one the chance to understand these special students better. Not only does one get involved in teaching the student but also learns how it affects the student both emotionally and physically.

I found this activity challenging, trying and sometimes emotionally draining, but overall a rewarding experience.

Medina Board of Education

Superintendent of Schools Mr. Thomas A. Schirmer

You, the Graduates of the Class of 1982, leave Medina High School, having completed your public school education. You have been provided with opportunities to learn and to grow into responsible adults. Most of you will use your new-found knowledge in such a way as to benefit our society. The years ahead will be the test of your education today. We sincerely hope that we have served you well and that you will experience good health, happiness and success in the future years.

Assistant Superintendent Mr. Thomas McKeever

Senior High School Principal Mr. Frederick E. Snyder

"From Each His Best" is part of our School Seal but the meaning of that slogan goes well beyond high school. To just get by is easy but to do our best requires a conscious effort from each of us. I hope that this effort is part of your life so that my best wishes for the Class of 1982 come to fruition.

1982 Mirror Special Tribute

Mr. Randall Smythe

The 1982 yearbook staff has the honor this year of presenting the Special Tribute to Mr. Randall Smythe. We would like to thank him for all the work he has contributed to our students. One word used to describe Mr. Smythe would be "friend." He is always there to lend a helping hand to anyone.

Mr. Smythe taught one year in Saugerties High School and six years in Lewiston-Porter before he started to teach in Medina. He began teaching English in Medina in 1966 and has been a great asset to the school ever since. We are lucky and privileged to have Mr. Smythe teaching at Medina High. We hope he'll be teaching here for many years to come.

The Mirror Staff would like to thank all the persons who made this yearbook possible with their suppor assistance, guidance, patience, and sympathy. There are numerous people who are worthy of a 'special' than you for their time and effort in helping us. They include Mr. Dale Cameron, Mr. Ed Weider, Mr. Nunz Maiorana, Mike Wertman. The staff, faculty, and administration of the school district, and above all, you, th students of the school. The fine patrons of the Medina business community also play an important role in th success of the book. We hope you enjoy the book and that it will offer many happy memories, now and in th future.
